

**University of North Carolina at Charlotte
Outdoor Events Shelter
Request for Prequalification**

New Atlantic Contracting, Inc. is accepting **Prequalifications Statements for First-Tier Subcontractors** for the University of North Carolina at Charlotte Outdoor Events Shelter project until **5:00 pm, Thursday, February 5, 2015.**

The Prequalification Phase of this project will comply with the State of North Carolina Prequalification Policy as set forth per Governing Law (Session Law 2014-42 – <http://www.nc-sco.com/cmforms-preqsub.aspx>).

Minority, Women, Disabled, and Disadvantaged Business Owners are strongly encouraged to submit for prequalification. There will be no requirement for bid, performance, or payment bonds for the trade packages.

Prequalification Statement Information:

Prequalification Statements can be obtained at <http://facilities.uncc.edu/advertisements> or www.new-atlantic.net, Select “Subcontractor Portal”, Select FTP Site New User Registration or FTP Site Existing User, Open Estimating Folder.

New Atlantic Contracting will accept job specific Trade Contractor Prequalification Statements until 5:00 pm, Thursday, February 5, 2015.

Communications and Submissions:

All communications and completed Prequalification Statements must be sent to Glenn Wise, New Atlantic Contracting, Inc, 2635 Reynolda Road, Winston-Salem, NC 27106. Phone 336-759-7440; Fax 336-759-7445, gwise@new-atlantic.net.

Project Type: Construction Manager at Risk

Project Details: The project consists of a new, 8,000-square-foot pre-engineered metal building shelter with a covered event space, catering preparation area, and associated men’s and women’s toilets. The restroom building will have a brick façade, composite metal panels, exterior HM doors, and aluminum windows. The restroom interior finishes include drywall partitions, epoxy painted floors, tiling, painted walls, and toilet partitions and accessories. Plumbing, mechanical, and electrical systems are being installed to support the shelter, bathroom areas, and surrounding site. The site work includes grading, storm drainage, sanitary sewer utility, water utility, cast-in-place retaining walls, concrete paving, metal railing, and brick unit paving.
