RESPONSES TO EMAIL QUESTIONS (NOTE: QUESTIONS AND RESPONSES ARE INCLUDED HERE ONLY IF THEY ARE NOT RESPONDED TO ELSEWHERE IN THIS ADDENDUM):

QUESTION: “One more issue arose due to the Addendum response to Laminate RFI.

- STR102 is listed in Addendum 3 to be Laminate Arborite Mocha Rosewood. However on A-602, it is scheduled as a HM door.
- COR108 and 152A are listed in Addendum 3 to be Laminate Arborite Mocha Rosewood. However on A-602, they are scheduled as a ALUM door.

Do I need to switch these to PLAM per the Addendum or leave as scheduled on A-602?”

RESPONSE: Door STR102 is correctly scheduled as Hollow Metal. Doors COR108 and 152A are correctly scheduled as Aluminum. On these three doors only, disregard Addendum 3 direction for laminate and provide as currently scheduled on A-602.

QUESTION: Won Door is one of the approved manufacturers in Section 08 17 00 but our doors are different than integral door assemblies. Is the design intent by the Architect to use our door instead of hold opens?

RESPONSE: If a Won Door assembly can be used competitively while achieving the aesthetic intent of the door openings, Won Door will be considered as an acceptable comparable product to the basis of design.

QUESTION: “What type of wall/partition is required for the enclosure of the Fan Coil Units in each bedroom. (Reference M-403, C1/A-408). One of the walls is approximately 2” and the other approximately 4”. Are these walls insulated, is drywall required in the interior of these walls? Are these partitions full height to the deck or stop 6” above the ceiling? Also, please define the partition type for the wall dividing the Closet and Dresser (ref. C1/A-408)”

RESPONSE: See revised sheet A-408.
